Traditional Mud Therapy

A rare encounter
between nature, time and
science

FangoLab

ART AND SCIENCE OF AN ENHANCED MUD

We introduce you to a place of **patience, dedication and innovation**. At Mioni Pezzato, we have over **100 years of expertise in mud therapy**.

Within our hotel's **FangoLab**, an ancient process takes shape - now refined by modern technology. Here, **the mud matures immersed in thermal water at 38°C for approximately 60 days**. During this time, a natural **biofilm of microalgae and cyanobacteria develops** - extraordinary organisms, heirs of the earliest forms of life that brought oxygen to the planet. It is in this phase that the mud becomes enriched with its most **valuable properties**.

In 2025, we completed **FangoLab**, the most **advanced mud maturation facility in Europe**. Light, temperature and water levels are constantly **monitored by digital sensors** to create the ideal environment for the proliferation of **thermosensitive cyanobacteria**, responsible **for the biological effectiveness of the mud**.

To survive extreme environmental conditions, similar to those of primordial Earth, these organisms produce protective molecules with anti-inflammatory and antioxidant properties. It is this biological heritage that makes our mud so effective for the body.

Thanks to a carefully controlled maturation process, developed in **collaboration with the Pietro d'Abano Research Institute**, we offer our guests a richer, more active and more effective mud: our **Enhanced Mud**.

A rare encounter between nature, time and science

Bath in thermal water

🕒 15 min. **20,00 €**

An immersion in pure, unfiltered and untreated thermal water to release tension and restore a sense of lightness.

Benefits: muscle-relaxing, pain-relieving and deeply soothing—promotes full-body relaxation.

Ozone

+ 7,00 €

A gentle hydromassage to enhance the benefits of the thermal bath.

PHYTO-therapy

+ 3,00 €

Rose, mint or chamomile for a unique sensory experience.

Enhanced Traditional Thermal Mud ⌚ 50 min. **33,00 €**

Our signature treatment: authentic matured mud from Abano Terme, a powerful natural anti-inflammatory unique in the world.

A warm application tailored according to medical prescription relieves muscle stiffness and eases joint pain.

Intense regenerating action activates the body's natural recovery and rebalancing processes.

Toning finish: energising shower followed by a bath in pure thermal water.

For optimal results, we recommend a treatment programme (package) for long-lasting and progressive benefits.

Ozone (recommended) **+ 7,00 €**

Medical check-up to gain admission to the treatments. ⌚ 15 min. **34,00 €**

Required for traditional mud therapy

Thermal organic-clay - Mud hands or feet ⌚ 20 min. **22,00 €**

Traditional Mud Therapy

Slow down
and follow the natural rhythm.

THE 6 STEPS OF AN ANCIENT RITUAL

1. Obligatory medical check-up to gain admission to the treatments. ⌚ 15-20 min.

A preliminary consultation with the resort's physician is required in order to undergo traditional mud therapy.

2. Scrub ⌚ 10-15 min.

The skin is prepared for the thermal treatment and deeply cleansed to enhance the absorption of minerals and beneficial substances.

3. Application of thermal mud ⌚ 15-20 min.

The matured mud is applied to the skin at a temperature between 38 and 42°C for a duration of 15 to 20 minutes.

4. Thermal bath ⌚ 8-10 min.

The thermal mud is removed with a **toning shower**, after which you immerse yourself in a **thermal bath** for 8 to 10 minutes at a temperature of 36–38°C.

5. Sweat reaction ⌚ 30-60 min.

After the mud therapy, the “sweating reaction” takes place, varying in duration and intensity from person to person.

6. Therapeutic massage ⌚ 25-55 min.

The treatment concludes with a reaction massage designed to reactivate circulation, tone the body and release tension.
